SHUVRO BISWAS NAYON

Frontend Developer (MERN Stack) | React.js | Next.js | JavaScript | AI-Assisted Development

Jhenaidha, Bangladesh | +8801756942382 | shuvrobiswas404@gmail.com | Linkedin | github | Portfolio

CAREER OBJECTIVE

Junior Frontend Developer with hands-on MERN stack experience building responsive React/Next.js applications, REST API integrations, dashboard UI, authentication flows, and reusable components. Seeking a frontend/MERN role where I can ship clean user interfaces, improve performance and accessibility, and use AI tools responsibly for debugging, documentation, test-case planning, and faster delivery.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript ES6+, JavaScript, React.js, Next.js, React Router, Context API

UI / Styling: Tailwind CSS, , DaisyUI, HeroUi, Framer Motion, responsive design, accessibility, SEO basics

Backend / MERN: Node.js, Express.js, MongoDB, REST API, CRUD, JWT, Better Auth, server-side validation

Forms / Data: Axios, Fetch API, React Hook Form, pagination, filtering, search, protected routes, role-based UI, error handling

Tools / Deployment: Git, GitHub, Vercel, Netlify, npm, Chrome DevTools, Figma-to-code, Prettier, VS Code

AI Workflow: ChatGPT, Gemini, GitHub Copilot, Cursor, Antigravity, prompt engineering, AI-assisted debugging, README writing, test-case generation

PROJECTS

Nestora-Property Rental & Booking Platform | *React.js, Node.js, Express.js, MongoDB,, JWT, Tailwind CSS,JavaScript, Recharts,Stripe*

Live: https://property-rental-and-booking-platfor-ivory.vercel.app/ **| GitHub:** Client Side **| GitHub:** Server Side

- Built a full-stack rental platform featuring dynamic property listings, category filters, search property, filter by price high to low or low to high, interactive favorites wishlist, user reviews, dark/light theme toggle, and responsive screens from 320px to desktop .
- Implemented role-based access for Tenants, Owners, and Admins with Stripe payment processing, duplicate-booking validation, and a property review/rejection workflow with feedback notes.
- Built analytics dashboards visualizing revenue and booking metrics via MongoDB aggregation pipelines and Recharts, securing backend REST endpoints using Better-Auth and JWKS-based JWT verification.

MediQueue - Tutor Booking & Session Management Platform | *Next.js, JavaScript, Firebase Auth, Tailwind CSS, React Hook Form, Vercel,Server Action*

Live: https://tutor-booking-system-zeta.vercel.app/ **| GitHub:** Client Side **| GitHub:** Server Side

- Built a tutor discovery and booking platform with dynamic routes (/tutors/[id]), slot-based availability, modal booking flow, session cancellation, and dashboards for managing tutor listings and booked sessions across 15+ routes.
- Implemented Better Auth with MongoDB adapter for email/password and Google OAuth, plus session-aware UI using Server Components, Server Actions, and revalidatePath for real-time updates after CRUD and booking actions.
- Developed a decoupled Express 5 REST API with MongoDB native driver for tutor CRUD, slot decrement/restore on book/cancel, start-date and capacity validation, and CORS-enabled integration with the Next.js frontend via NEXT_PUBLIC_SERVER_URL.

SummerCART - Summer Essentials E-Commers Storefront | *React.js, Better Auth, MongoDB, Stripe Mock, Tailwind CSS, React Router, Vercel*

Live: https://summercart-summer-essentials-store.vercel.app/ **| GitHub:** https://github.com/shuvro18/summercart-summer-essentials-store

- Built a responsive summer essentials storefront with an animated hero (Lottie + marquee), product grid/detail pages, summer care guide, top brands showcase, and legal pages using Next.js 16 App Router and DaisyUI.
- Implemented Better Auth with MongoDB adapter for email/password and Google OAuth, plus session-aware navbar, profile view/update flows, login-gated product detail access, and toast feedback across auth actions.
- Structured a component-based catalog UI with Server Components for product pages, client-side session hooks, stock/out-of-stock states, rating and category badges, and a 12-item static product dataset ready for future API integration.

KeenKeeper - Personal Friendship & Relationship Tracker Web App | *React 19, React Router v7, Recharts, Tailwind CSS v4, DaisyUI, React Context API, React-Toastify, Vite*

Live: https://keenkeeper-friends-a7.netlify.app/ **| GitHub:** https://github.com/shuvro18/-KeenKeeper-Keep-Your-Friendships-Alive-A7

- Implemented global state management with React Context API to log quick check-ins (calls, texts, video meetups), preventing duplicate entries with validation logic and providing real-time feedback via React-Toastify notifications.
- Developed an interactive communication timeline with action-based dropdown filters (calls, texts, video) and dynamic route loading (/details/:id) powered by React Router v7.
- Integrated Recharts to render friendship analytics with custom-styled donut charts visualizing interaction breakdown, leveraging React 19's use() hook and <Suspense> boundaries for asynchronous data loading states.

EDUCATION

Higher Secondary School Certificate - Science 2023-2024

Adil Uddin Degree College GPA: 4.25/5.00

CERTIFICATIONS & LANGUAGES

Certifications: Complete Web Development with MERN Stack - Programming Hero, 2025; Responsive Web Design / JavaScript / React practice certificates - freeCodeCamp or equivalent. certificate

Languages: Bangla - Native; English - Professional working proficiency, comfortable with technical documentation, email communication, standups, and interview practice.

Soft Skills: Problem solving, self-learning, technical documentation, team communication, feedback handling, deadline ownership, and recruiter-ready project presentation.
